

## WooCommerce Integration Guide

2018

This guide is designed for Storeship Customers only and is intended to help you link your WooCommerce products and orders with the Storeship Fulfilment software.

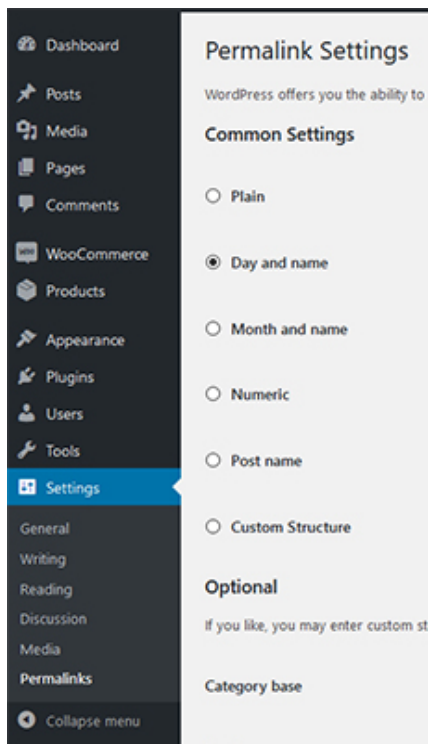

In order to integrate, Storeship requires you to generate some API keys from your store, details are below:

Log into your WooCommerce administration area of your website.

You first need to ensure Permalinks are switched on.

Click on Settings | Permalinks

Choose one any of the options EXCEPT Plain

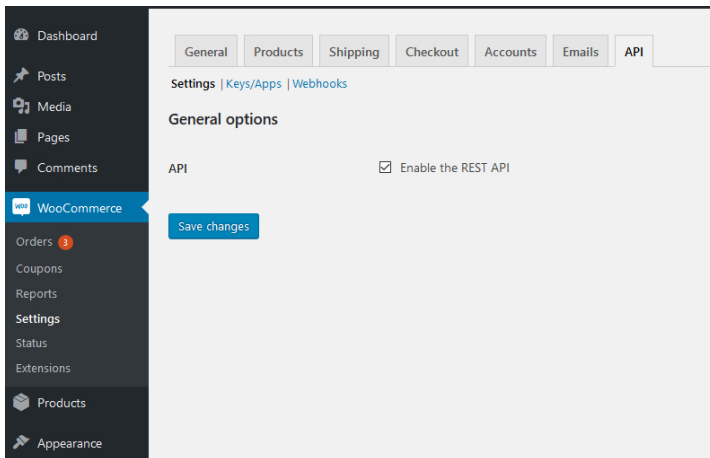

Go into WooCommerce | Settings | API

Tick the box: Enable the REST API

Click Save changes

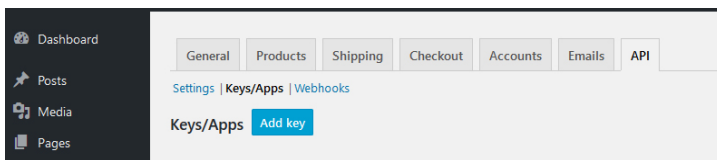

Oakfield House  
Derby Road Industrial Estate  
Heanor  
Derbyshire  
DE75 7QL

08450 94 84 14  
www.storeship.co.uk  
storeshipuk@gmail.com

Next Click on Keys/Apps

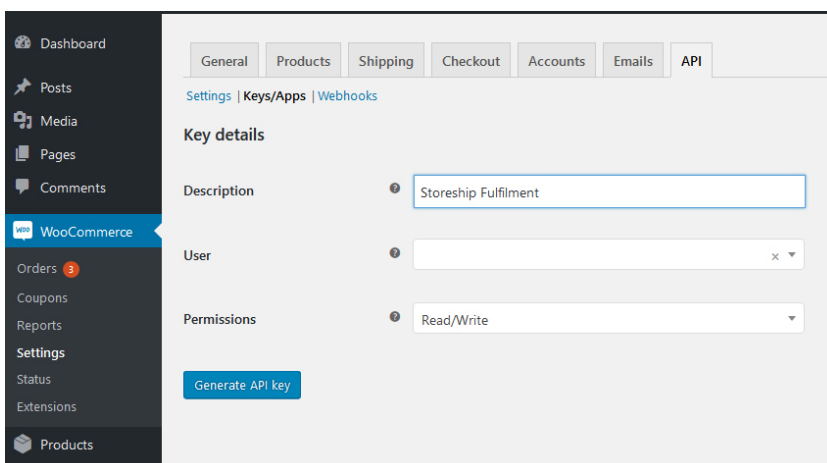

Click on Add Key

Select the user from the dropdown who you would like to set up for, generally the main admin user.

Next choose a description for the API we Suggest Storeship, set the permissions to Read/Write as we would need to read data from your store and also post back when orders update etc (write).

Once completed click on Generate API Key

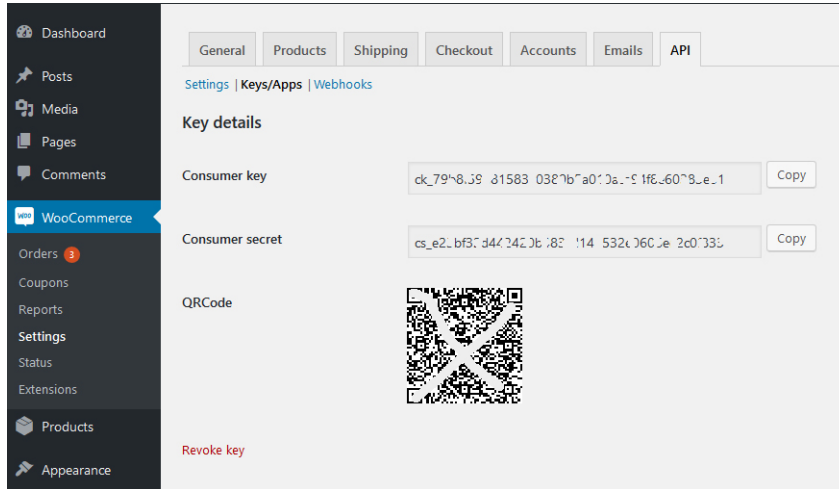

Oakfield House  
Derby Road Industrial Estate  
Heanor  
Derbyshire  
DE75 7QL

08450 94 84 14  
www.storeship.co.uk  
storeshipuk@gmail.com

You should now have generated your API Keys.

You will need to input the consumer key and consumer secret keys into the StoreShip Control Panel.

Please contact support to obtain link to add details:
